WORK EXPERIENCE

Via Care Community Health Center, East Los Angeles, California
HIV Navigation Specialist, January 2026-Present
● Provide rapid HIV testing and counseling to patients and any individual seeking support related to HIV.
● Present and educate community members, partners, and patients on HIV, STIs, and Hepatitis C.
●Provide linkages to HIV, Hepatitis C, and STI treatment and care to patients and community members.
● Review and document patient test results, risk assessments, and sessions in the medical record system, ECW, and the CDC Secure Access Management Services (SAMS).
● Conducts outreach, engages, and provides educational components to the target population, the community, and potential partners.

Helpline Youth Counseling, Whittier, California
Lead Recovery Support Coordinator, August 2023 – December 2025
• Provide emotional wellbeing, psychoeducation, SAPC Health Youth, and nicotine and vaping curriculum to potential clients struggling with emotional wellbeing, substance use, and anger management.
• Oversee data collection based on the progress and discharge of the clients to provide quarterly reporting on the program to SAMHSA
• Incorporate additional resources that can fill gaps in the client's social determinants of health.
Interim Prevention Coordinator, May 2023- August 2023
• Plan and coordinate program activities, including trainings, workshops, and outreach events surrounding the program's work plan goals.
• Responsible for overseeing the direction and coordination of Prevention Specialist staff.
• Monthly reporting on the program's activities to the agency and the Los Angeles County Department of Public Health

• Provide budget, work plan, and evaluation reports for the new fiscal year.

Prevention Specialist, August 2022- April 2023

- Provide presentations on the dangers of different drugs and how to prevent drug use among youth using.
- Implement Botvins Life Skills with local high schools and create cohorts throughout the semester.
- Attend SAPC Trainings in order to comply with the SAPC contract and enhance skills and knowledge surrounding substance use.
- Partnering with local schools, community-based organizations, coalitions, and businesses to bring awareness of different drug uses that are occurring and affecting the community.
- Creating presentations, infographics, and flyers for presentations, events, and our social media account.

Comprehensive Community Health Centers

Community Health Worker, August 2021- August 2022

- Educated and promoted medical and mental health services to various populations and organizations.
- Connected and partnered with other community-based organizations to work together to support each other's communities.
- Do introduction and group presentations to organizations, parents, and individuals about the services and programs offered at Comprehensive Community Health Centers.
- Support and administer any referrals sent from current partners or other organizations.
- Organize community distributions such as backpacks, COVID-19 testing kits, and clothing.
- Create appointments for new and current patients by using our Medical Records Service, e-Medsys.
- Participate in health fairs, community events, and virtual meetings with potential or current partners.

Helpline Youth Counseling, Whittier, California

Promotora, January 2021- July 2021

- Provide culturally based mental health support to DCFS-involved caregivers.
- Help reduce mental health stigma, improve coping skills, and link families to access services to ensure they are able to provide a healthy and stable environment for their children.
- Help clients sign up for various programs such as Cal-Fresh, Cal-WORKS, Medical, and Section 8 housing.
- Help clients develop resumes and seek employment.
- Teach and demonstrate to clients healthy eating habits by shopping and meal planning with approved discretionary funds.
- Help clients with organizing and decluttering their homes.

Thrive Academy-Kaiser Permanente

***Intern*, June 2018-July 2018**

- Mentoring mentees to analyze and reflect on current issues and solutions within their community.
- Teach and expose mentees to various fields of health, such as Public Health, Medicine, Community Health, and Kinesiology.
- Exposed mentees to scholarly articles for their research project.
- Guide mentees in their presentations by practicing public speaking and paraphrasing material about their research project.
